

TOPAZ 2D

Tesla TOPAZ 2D is a synthetic based automatic transmission fluid designed specifically for use in DEXRON IID. TOPAZ 2D has extended drain interval capabilities due to its superior oxidation stability, deposit control and resistance to viscosity shear loss. It has stable static and dynamic coefficients of friction, prevents noise generation and has smooth lock-up of the transmission clutches.

APPLICATIONS

- ◆ DEXRON IID
- ◆ Allison transmissions

PERFORMANCE STANDARDS

TOPAZ 2D meets and exceeds the following OEM and International specifications:

GM Dexron IID
 Ford Mercon

Always follow equipment manufacturer's recommendation for required lubricant performance levels and oil drain intervals.

BENEFITS

TOPAZ 2D provides:

- ◆ Excellent shear stability
- ◆ Extended long drain intervals
- ◆ Protection against copper corrosion
- ◆ Smooth gearshift changes
- ◆ Very good low temperature fluidity

Technical Data*			
Colour	Red		
Viscosity mm ² /s @ 100°C	7.5		
Viscosity mm ² /s @40°C	35		
Viscosity cPs @ -40°C	20,000 max		
Pour Point, °C	-48		
Flash Point, °C	210		
Viscosity Index	>160		
Product Code	2251		

Color Varies from Country to Country. Properties mentioned above are typical only and minor variations, which do not affect the product performances, are to be expected in normal manufacturing. Advice and opinion noted herein are given in good faith and on the basis of the best information available, information is based on past history of the grade only and must not be construed as a guarantee of performance nor any legal liability is accepted by Tesla Corporation or any of its affiliates. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available with your nearest TESLA office or at www.teslalube.com. © Tesla Corporation, 2011
