

GADIVA MP GREASES

Tesla GADIVA Multipurpose greases (MP) are light colored, buttery smooth, lithium based greases suitable for a wide range of uses. Tesla greases have good mechanical stability and excellent oxidation stability, insuring long life. It is especially inhibited rust and corrosion and has extra tackiness additives to add superior resistance to the washing-out action of water. It maintains good pump ability even in cold weather and is ideal for centralized grease systems

Tesla GADIVA MP Multipurpose Greases are truly multipurpose greases and is suitable for applications found throughout the industry, such as in electrical motor bearings, fan bearings, pump bearings and other plain and anti-friction bearings. It is suitable for all applications found in the automotive, earth moving equipments like cranes, movers, dumpers, tippers etc.

It is recommended for use where water contamination is encountered, and is suitable for bearings operating at temperatures as high as 121 deg C or higher if replenished frequently.

Specifications met: NLGI LB

Typical Properties:

NLGI Grade	1	2	3
Soap Thickeners	Lithium	Lithium	Lithium
Texture	Smooth, buttery	Smooth, buttery	Smooth, buttery
Dropping Point, deg C	185	180	180
Penetration, D 217, Worked	325	280	235
Oil Vis. At 100C, cst	17	17	17
P.Code	1628	1630	1631

Color Varies from Country to Country. Properties mentioned above are typical only and minor variations, which do not affect the product performances, are to be expected in normal manufacturing. Advice and opinion noted herein are given in good faith and on the basis of the best information available, information is based on past history of the grade only and must not be construed as a guarantee of performance nor any legal liability is accepted by Tesla Corporation or any of its affiliates. Follow equipment manufacturer's recommendations for performance level and viscosity grade. The Material Safety Data Sheet for this product is available with your nearest TESLA office or at www.teslalube.com. © Tesla Corporation, 2011
